

FLEXIBLE PROTECTION SYSTEM

Base Type / Reflective Bands / Anti-Impact Grade / Top Cap Design

PRODUCT BRIEF

Flexible Protection System is designed to absorb impact and protect people, equipment, and structures. Made from high-elastic polymer materials, it flexes on impact and returns to its original shape. It reduces damage, maintenance costs, and downtime compared with steel barriers. Ideal for warehouses, logistics centers, and industrial traffic areas.

FLEXIBLE PROTECTION

ANTI-COLLISION GUARDRAIL

- Material: Weather Resistance HDPE
- Size/Color: Custom Sizes Available
- Accessories: Metal, Rubber, Steel Plates

01

IMPACT GUARDRAIL

- Material: Weather Resistance HDPE
- Size/Color: Custom Sizes Available
- Accessories: Metal, Rubber, Steel Plates

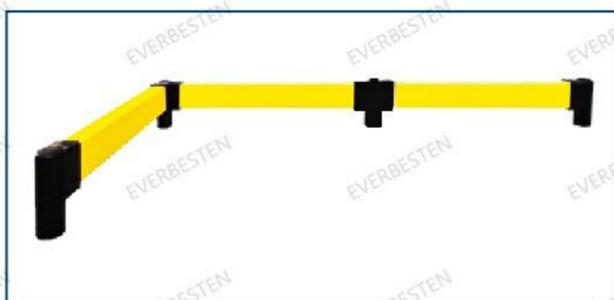

02

COLUMN PROTECTOR

- Material: Weather Resistance HDPE
- Size/Color: Custom Sizes Available
- Accessories: Metal, Rubber, Steel Plates

03

GROUND BARRIER

- Material: Weather Resistance HDPE
- Size/Color: Custom Sizes Available
- Accessories: Metal, Rubber, Steel Plates

04

STANDARD FLEXIBLE BOLLARD

- Material: Weather Resistance HDPE
- Size/Color: Custom Sizes Available
- Accessories: Metal, Rubber, Steel Plates

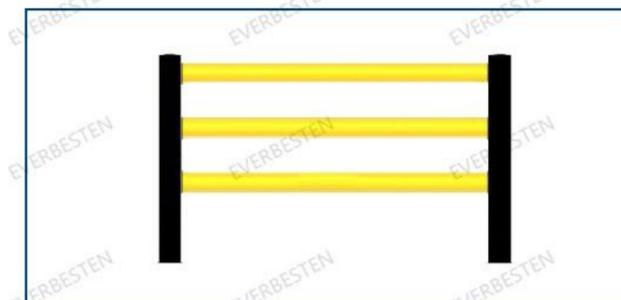

05

HEIGHT RESTRICTION

- Material: Weather Resistance HDPE
- Size/Color: Custom Sizes Available
- Accessories: Metal, Rubber, Steel Plates

06

FLEXIBLE GUARDRAIL

- Material: Weather Resistance HDPE
- Size/Color: Custom Sizes Available
- Accessories: Metal, Rubber, Steel Plates
