

# HIGH SPEED SPIRAL DOOR

Suitable For Both Indoor & Outdoor Openings / Color Customization Available

FAST AND NON FRICTION

LIFTING SYSTEM

## PRODUCT BRIEF

A High Speed Spiral Door is a fast-operating rigid door with aluminum panels and a non-contact spiral track. It offers high speed, strong insulation, and improved security, making it ideal for factories, logistics sites, cold-chain areas, and frequent-use openings. Its durable design reduces wear, runs quietly, and ensures long service life with low maintenance.

## TECHNICAL PARAMETERS
