FOAM / ADJUSTABLE

Custom Curtain Height / Special Shape / Special Size

PRODUCT BRIEF

Dock Seal is a protective sealing system installed around the loading dock door to create a tight seal between the building and the vehicle. It effectively reduces energy loss, prevents dust and rain from entering, and improves loading efficiency and safety. Dock Seals are widely used in warehouses, logistics centers, cold storage, and manufacturing facilities.

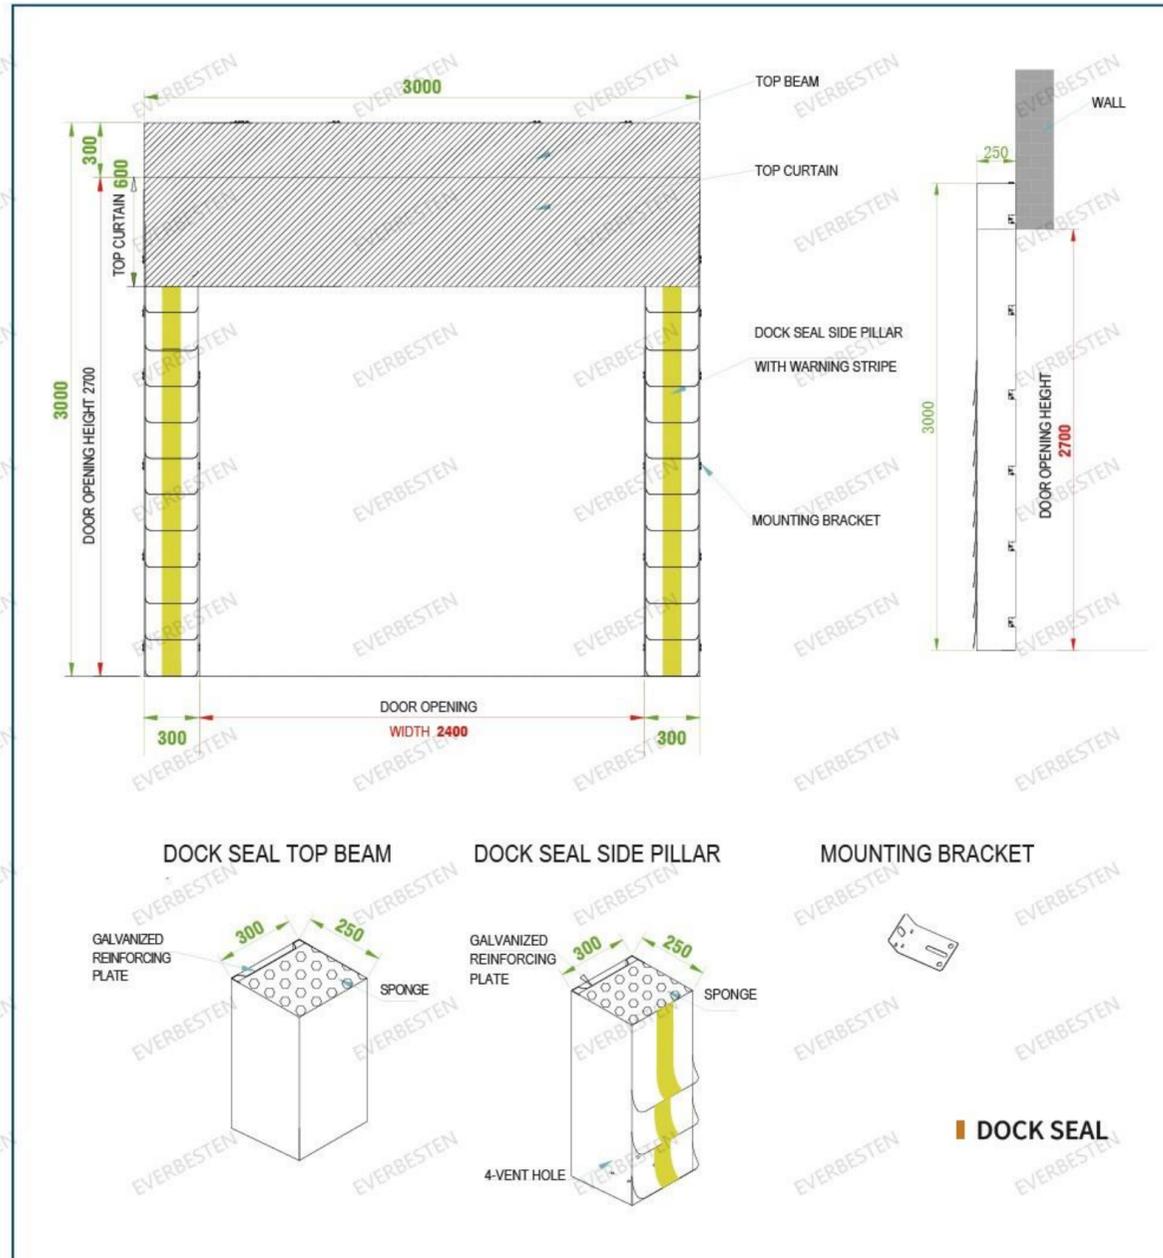

ADJUSTABLE TOP CURTAIN

PVC WEAR-RESISTANT COVER

PRODUCT FEATURE

Strong Sealing

Adjustable Top Curtain

Sound Insulation

TECHNICAL PARAMETERS

ITEM	SPECIFICATION
Key Features	High-Density Foam Core For Durable Compression
Material Thickness	Heavy-Duty 0.8mm PVC Covering
Advantages	Enhanced Weather Protection & Improved Efficiency
Features	Suitable For Dock Doors And Tight Parking Spaces
Options	Custom Dimensions / Wear-Resistant Strips / Logo Printing
Application	Standard Trucks / Vans / Dock Loading Areas

INDUSTRY ADAPTATION

Suitable for logistics, cold storage, cold chain warehouses, food, pharmaceuticals, etc.
