## PRODUCT BRIEF

Dock Shelter is a flexible sealing system designed to create an effective barrier between the loading dock opening and the vehicle body. It accommodates a wide range of truck sizes, provides excellent weather protection, and improves energy efficiency during loading and unloading. Dock Shelters are ideal for logistics centers, warehouses, cold-chain facilities, and high-frequency loading areas.

# 55

## DRAWING

## TECHNICAL PARAMETERS

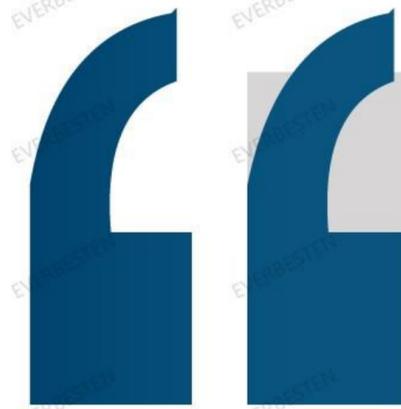

ITEM	SPECIFICATION
Features	Flexible Design For Various Truck Sizes
Advantages	Excellent Weather And Dust Protection
Application	Reduced Energy Loss For Climate-Controlled Areas
Frame Structure	Galvanized Steel Frame For Stable Support
Curtain Material	Heavy-Duty Fabric 3mm, EPDM
Options	Logo Printing / Inflatable airbag

## PRODUCT FEATURE

Mute Operation Design

Full Welding & Sealing
