

TELESCOPIC DOCK LEVELER

Easy Cleaning / Color Customization Available

PRODUCT BRIEF

Telescopic Dock Leveler is a high-performance loading solution equipped with an extendable telescopic lip, allowing precise positioning and safe loading for various truck types and distances. Compared with standard hinged-lip dock levelers, the telescopic design provides better reach, higher efficiency, and maximum loading safety, especially for closed containers, tail-lift trucks, and vehicles requiring deep platform extension.

TECHNICAL PARAMETERS

ITEM	SPECIFICATION
Platform Material	Q235 / 6-8MM Anti-slip Checkered Steel Plate
Lip Extension	500-1000 mm (Adjustable)
Lip Type	Telescopic Extendable Lip
Cylinders	1 Platform Cylinder + 1 Lip Cylinder
Safety Features	Automatic Fall-prevention Valve / Toe Guard Protection
Advantages	Precise Lip Extension for Various Truck Types
Optional	Hot-dip Galvanized / Extended Lip (up to 1000-1200 mm)
